And Other Itching, Burning, Scaly Eruptions with Loss of Hair.

Speedy Cure Treatment.

Bathe the affected parts with Hot Water and Cuticura Sosp, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Olatment freely, to allay itching, irritation, and inflammation, and soothe and fieal, and lastly take Cuticura Resolvent Pills, to cool and cleanse the blood. A single set is often sufficient to cure the most torturing, disfiguring, itching, burning, scaly, pimply humours, eczemas, rashes, arritations, and chaffings, with loss of hair, when all else fails.

The agonizing itching and burning of the skin, as in cezema; the frightful scaling as in psoriasis; the loss of hair and crusting of the scalp, as in scalled he i; the facial disfigurement, as in pimples and ringworn; the awful suffering of infants and the auxiety of worn-out parents, as in milk enist, tetter, and salt rheum, - all demand a remedy of almost superhuman virtues to successfully cope with them. Such are the Cuticura remedies, the purest, sweetest, most speedy and economical curatives for the skin, scalp, and blood ever compounded. Mothers are their warmest friends.

Millions of Women Use Cuticura Soap

Assisted by CUTICURA OINTMENT for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby makes and chafings, in the form of baths for and sore hands, for baby makes and chafings, in the form of baths for amoying irritations and inflammations of women; or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative, tantiseptic purposes which readily suggest themselves, as well as for all the purposes of the toilet, bath, and nursery.

CITICURA RESOLVENT PILLS (Chocolate Conted) are a new, tasteless, brated liquid Curicura Resolvent, as well as for all other blood purifiers and humour.

BHARRSPEARE.

MR C. B. BEAN ON

Mr Dernard Shaw, and not the fact that he receipts were to be levoted to the dvancement of the Labour movement in London, drews large gathering of people to Kensington Town Hall list night. Dr Fernivall was in the chair wild Mr Shaw was announced to lecture on Bhakespeare, whom he regards as a serious rival. Mr Shaw was somewhat deprecatory about his knowledge of Shakespears. At least, he admitted that he does not know as much bout him in the classical sense as do Dr. Furnival or Mr Sidney Lec. He, however, housted that he knew as much about him as any man in the street-that is, any man in the street who has road Shakespearsand he proceeded the state, among other

When admirations for the Bible began to wane, the idolatry of Stiskurpeare began to

People were horrified more at my views on Shakespeare than on religion or sociology '; and

'The only time I was insulted was by the president of a Shakespears Society. The idulatry of Shakespeare was no new thing; it went on whom Shakespeare was alive. Ben Jonson-who was somewhat surprised that a man like Shakespeare should be so successful-said, I loved the man as well as any short of idolatry: Why, he asked, should he say that? Suppose they went home, and were asked 533 | Row did you like Bernard Shaw? they would not say 'I like him all right short of idolatry' (laughter). There were people

who tilked like that (haughter): Shakespeare was a sulgar and illiterate man. Ho was of a respectable class, for his father had been a bankrupt (laughter). People whose fathers were bankrupts did not hold horses outside threatres, as Shake speare was said to have done. Shake speare knew all about the middle clauseshe belonged to them. Mr Shaw wont on to demonstrate, by references to Professor Hewins, the Tariff Commission, municipal Socialism, the discovery of America, and various other matters, that Shakespears had been a supercarge on a vessel chartered by the Carendish family. He inverghed against considering that Shakespeare was dways absolutely night. He, however did not object to Shakespeare giving Bohomia a sea coast. In an earlier play he gave Milan a ses coast. L said Mr Shaw emphaticulty, would have done the same thing myself it I had wanted a ten const at Milan (laughter).

Shakespeare came to town and write. play called Love a Labour Lost, quite a clever Bedford Park sort of play in the master full of the sayin sthat a dramatist would put in the months of kings and benutiful ladies if he were quite ignorant of courts. He sketched our oncer Shakespeare's plays, insisting that he only wrote because his payeners compelled him to write something popular, Like Pilite wishing his house. Shakespeare when he had done the by threw it to those who had thus urged him, saying, There it is I as you (hughter). As for Buylock, he said Englishmen forgot that when a Jew makes an agreement he means to keep it, and he expects the Englishman to do the same (laughter). The play was there-fore charact ris ically English; and Antonio ought to be called John Smith or James Broadhurst. Finally, he considered that it was a pity Shakespeare wrote in blank verse: a cat could write in blank verse. Were he (Mr. Shaw) allowed to write in black verse he could write three in & month. The great ding rabout Shakespeare was that he had such a gift of language that he fucinated one, and was forgiven a great many things. He, himself, reguled Shakespeare in two ways. One of his Mr Shaw's) eyes was the eye of an artist, and the other the eye of a plumber. With one

DOWIE'S RIVAL IN HAWAII.

Honoruru, April 11. Dowie has a rival or imitator in Hawai in the Rev. J. M. Ezera, for a number of years poster of the native Congregational Church at Eve, and considered, next to Boy. S. I. Dasha, the most eloquent and influential native pastor in the Islands. Ezera is now the leader of a new cult or sect, the members of which look upon him as a reincarnation of Elijah. He claims that the spirit of God is incarnate in him at his will, as are also the apirite of Elijeh and St. Paul. His following is an oathbound organisation, only those being admitted to the deeper mysteries of the cult who have proven faithful in the simpler elements.

Ezora is one of the handsomest Hawailans in the Islands. Ho is a man of great eloquence in his native tongue and knows the Scriptures almost by heart. He has been pastor of the Ewa Church, one of the largest native churches in the Islands, for several years. Two years ago he was chaplain of the Senate. Nearly two years ago he lost his wife, the mother of his bine children. Melanchola followed this grief, and he began to see visions and have spiritualistic visitants, though he remained orthodox in his theology until a few months ago, when he began to develop the doctrines of incarnation in him of some of the worthics of the

Old and New Testaments. His doctrines include the duty of his followers to provide liberally for him, and this they have to far done. He has gathered quite a following about him. Severalof the native churches—among whose membership he has preached his doctrines-have become

A QUAINT CONGO TRIBE.

The report that the Foreign Office withholds its consent for the proposal to bring a party of Congo pigmies to England, pending a guarantee of their healthy condition; lends interest to the account of this quaint tribe which (writes a correspondent to the Standard) has been given me by Dr. W. J. Ansorge, who has just returned to this country from his remarkable journey acress

· The pigmies,' he said, 'inhabit the region between Fort Beni and Avacubi. They are known locally as Wamibuti. Some are much taller than others, but the -smallest- are absurdly short, not much taller, in fact, than an English child of six BY ORDER OF THE MORTGAGEE. or seven. I did not find them at all shyowing, no doubt, to the fact that white officials of the Congo State are constantly travelling up and down the route.

*At Olinga they performed one of their curious native dances in my presence. The dancers followed each other in a circledest one, two, three steps, and then advancing, and next one, two, three steps without advancing. From time to time the THE VERY VALUABLE women clapped their hands-for they areexpert manumusicians-producing a loud. cracking, wooden noise, and seemingly constant repetition of "wo, wo, we, we, we, and yo, yo, yo." At Mohalla their songs evidently contained words, and the tune was far from disagreeable.

* The typical Wambuti has a receding forehead, bushy eyebrows, and thick pouting lips. Some, however, have a totally different cast of features. This leads me to believe that different tribes are new confounded under the general term of Wambuti. I was assured by several officials that they were cannibals, but if such practices are carried on it is only with the greatest possible secrety. Such of the Wambutias I saw were perfectly friendly indeed, at Mohalla they brought me as a present a live antelope."

The Effect on Shipping.

One of our prominent shipping firms has courteously informed us that they have received a telegram from Shanghai which is to the effect that there were nineteen band. Russian battleships of the Saddles, mear Shanghai, yesterday evening, with colliers,

This information has had an immediate effect on the shipping, especially with regard to vessels running to and from Shanghai and Japan, and the result is that the Japanese Langhai line is practically suspended.

In view of the Russians being in the vicinity of the Japaness coast the exported coal has been prohibited from Moji. Soveral vessels are, we believe, in the harbour of that port unable to leave on to count of this prohibition.

It is rather a significant fact that no re-

They were then about 150 miles east-north-east of Cape Varella. which would place them slightly south of the Paracels, or about 15 degrees porth Now we find them at Shanghai, more than 31 degrees north, and during the whole of the time it has taken them to reach the northern port, not once has a report

been made by passing ships.

From their position on May 16 they had. the choice of using the Bashee Channel skirting east of Formosa and passing between the Loochoo Islands and Majies Sima Group, to reach Shanghai, or by going through the Formosa Channel and passing the Pescadores. Which route they availed themselves of we are not in a position to state, but the probabilities are that they kept clear of the Formesa Channel. From reports an rumours that have been current for some the Russians with the object of blocking time it was generally considered that the the entrance of Port Arthur, was refleated Formosa Channel was an extremely dangerous one for the Russians to attempt to over to Japan. pass through, hence the deduction that the Russians went through the Bashee Chan-

Now that the Russians have reached Shanghai the naval engagement, which we have been looking forward to for so long appears to be well within sight. The conditions are all the more favourable to the Japanese than they would have been had a fight taken place further south. The Russi and can only reach Vladirostock by passing close to the cost of Japan. It is now probably that they will attempt a dash through the Corean Straits, either by the Broughton Strait (between Corea and Tsushima) or by that apan will declare her hand. You will observe on comparing the accounts now before you, with those of last year, that Local and General Liabilities are less by \$99,168.21; amounts borrowed on mortgage by \$27,005.02; and Bills payable by \$82,625.17, or a total decrease in the Liabilities of \$208,798.40; whilst our Assets in the form of Stecks have increased in the same period by

\$108,872. 5, an increase brought about by the establishment of a new Assated water Factory in Canton and the acquisition of the Shanghai businesses of Meters Mactavish and Lehmann. The purchase of the latter was successfully carried through in April last year, and so far, we have every reason to congratulate ourselves. We'sre of opinion that these new branches will prove a cource of strength to the Company in the future. As you areaware, during the period wider review, the capital of the Company was increased from \$600,000, to \$300,000 by the issue of 30,000 new shares of \$10 each, such shares being issued at 10% premium. The amount derived by way of premium was carried to Permanent Reserve Fund, increasing the amount of this Fund from 1250,000 to \$280,0 0.
